

Logo verification report

Kapila Technologies | 16 October 2026

Draft — Pending Final Approval

All six designated files exist and are retained without modification. Both raster wordmarks are approved at 3018 × 579 pixels. The white SVG closely matches its PNG; the dark and square SVGs have material differences and must not be described as fully interchangeable with their raster versions.

Official locations

OneDrive root: Kapila Technologies/08. Brand & Assets

Folder below root	Files
1. Official Logos/PNG - Original Masters	kapilatech-dark-logo.png kapilatech-logo-white.png
1. Official Logos/Vector Masters	kapilatech-dark-logo.svg kapilatech-logo-white.svg Dark-Square-Logo.svg
3. Social Media Assets	Dark-Square-Logo.jpg

Raster findings

Asset	Verified properties
Dark wordmark PNG	3018 × 579; RGBA transparency; 5.2124:1. Lettering #1A1A1A and #000000; accent #FF6600.
White wordmark PNG	3018 × 579; RGBA transparency; 5.2124:1. Lettering #FFFFFF; accent #FF6600.
Square JPEG	500 × 500; opaque RGB; white KT on black. Compressed orange samples near #FD6502. Intended logo orange remains #FF6600.

Verification method and limits

Read-only inspection checked image dimensions, channels, dominant colours, SVG elements, declared canvases and rendered appearance. Local file QuickXor hashes matched OneDrive metadata for all six originals. No logo was traced, recoloured, rewritten or replaced. Verification does not approve correcting or substituting assets.

SVG findings and visual comparison

SVG	Structure and comparison
Dark wordmark	151.94019 × 34.842018 mm canvas, ratio 4.3608:1. Live Verdana Bold text rather than outlined lettering; requires font availability. No embedded raster. Proportions and margins differ from PNG. Not interchangeable.
White wordmark	3018 × 579 viewBox; 11 outlined paths, no live text, embedded raster or external image dependency. White and #FF6600; transparent. Close visual match with minor traced-edge differences; not pixel-identical.
Square KT	640 × 640; two white paths and an orange rectangle; no embedded raster. Transparent with #FD6503 orange; JPEG has a black field and a 500 × 500 canvas. Similar KT geometry but different presentation. Not interchangeable.

Owner review remains open for the dark SVG’s font dependence/proportions and the square SVG’s orange/background. The approved raster master dimensions are resolved and must not be reopened as an unverified item.
